*Slim*TM **COSMOS DT Series**

Intelligence and Sheer Elegance
*Microprocessor controlled dual
technology motion detectors*

***Good Looks
and Brains,
All in One
Family***

The stunningly designed **COSMOS DT** series of dual technology (infrared and microwave) motion detectors includes: **RK110, RK115 & RK125** models especially suitable for harsh residential or commercial environments.

Using both infrared and microwave channels to improve false alarm immunity the **COSMOS DT** range will help solve your installation problems. The COSMOS family also includes a range of PIR, wireless and wireless ready detectors in the same attractive, elegant housing.

COSMOS DT FEATURES

- **Dual IR and MW Technologies**
- **Microprocessor Controlled**
- **Patented True Temperature Compensation**
- **Microwave Range Adjustment**
- **Pigmented Lenses**
- **Creep Zone**
- **Alternate Polarity Pulse Count**
- **Low Current Consumption**
- **High RFI Immunity (Metal Shield)**
- **Anti - Fluorescent Interference Signal Processing**
- **Ceiling & Wall / Corner Mount Swivel Brackets**
- **Memory and Form-C Relay Models Available**

COSMOS^{DT} Series

The elegant solution for installations in harsh residential or commercial environments.

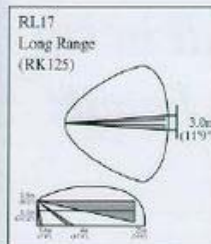

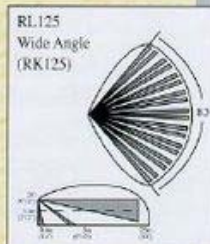

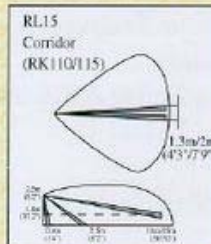

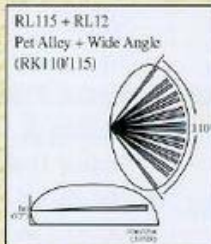

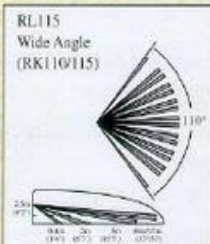

SPECIFICATIONS*

Operating Voltage:	9 to 16 Vdc regulated
Current Consumption:	17 mA
Alarm Contacts:	NC, 50 mA, 24 Vdc maximum
Tamper Contacts:	NC, 100 mA, 24 Vdc maximum
Alarm Time:	2.2 seconds minimum
Warm Up Time:	2 minutes
RF Immunity:	30 V/m at 10 MHz to 1 Ghz
Operating Temperature:	0° C to 55° C (32° F to 131° F)
Storage Temperature:	20° C to 60° C (-4° F to 140° F)
Dimensions:	128 x 64x50 mm (5x2.5x1.6 in)

* Specifications are subject to change without prior notice.

ACCESSORIES	RK110	RK115	RK125
Wide Angle Lens (supplied)		RL115	RL125
Long Range Lens	***	***	RL17
Corridor Lens		RL15	***
Pet alley set		RA12	***
Ceiling - mounted Swivel		RA90	
Wall/ Corner -mounted Swivel		RA91	

Combining both infrared and microwave capabilities to eliminate false alarms the COSMOS DT series includes three standard models **RK110, RK115, & RK125** for 10m (33'), 15m (50') and 25m (83') ranges. Both technologies must verify an intrusion for the alarm to be activated. The microwave range is user adjustable to make it suitable for all size rooms or premises.

Utilizing all the advanced features of the COSMOS family such as microprocessor control, Patented True Temperature Compensation proprietary algorithms, pigmented lenses, creep zone and more, the COSMOS DT detectors come with a range of lenses, pet alley inserts and mounting swivels. Memory and form C models are available.

COSMOS DT range includes, UL, ULC, AFNOR, IMQ, BVVO & SCB approved versions as well as PIR, Wireless, Wireless Ready and LUNAR ceiling mount units. Contact your nearest ROKONET branch or distributor for details.
